ENSURING TRANSFER SUCCESS
May 4, 2020
admissions.uci.edu
What more could anyone ask than to work every day at an institution championing The American Dream? UCI is dedicated to exceptional academic standards, world-class research, life-changing innovation, and providing opportunities to an increasingly diverse and inclusive student body.

In pursuit of these ambitions, the Office of Undergraduate Admissions, along with the general functions of recruitment, application review and admissions decisions, is committed to creating and nurturing productive and cooperative relationships with California high schools, California Community Colleges, community-based organizations, and other educational organizations.

Thank you for the work you do preparing students for the university and informing them about UCI. I am both humbled and inspired each day by the incredibly bright, talented students I meet on our campus. We hope to continue to see your top students at UCI.

Dale Leaman
Executive Director
Office of Undergraduate Admissions

EXPLORING UNDERGRADUATE RESEARCH

• UNDERGRADUATE RESEARCH is a great way to get professional experience on campus while working with fellow undergraduate students, in addition to graduate and Ph.D. students and faculty.

• THERE ARE FEWER THAN 7,000 graduate and professional students at UCI, which means there are more opportunities for undergraduate students to work alongside faculty on research projects.

• RESEARCH IS OPEN TO ALL STUDENTS, no matter the major or GPA.

• STUDENTS CAN DO RESEARCH on everything from robots and cancer to the arts and humanities.

• STUDENTS ALSO HAVE THE OPPORTUNITY to present and publish their work through the Undergraduate Research Symposium, the Undergraduate Research Journal, and as co-authors with the faculty member in nationally recognized and peer-reviewed scientific journals.

• THERE ARE 5 FULLTIME STAFF MEMBERS in our Undergraduate Research Opportunities Program who are focused on assisting students in finding the right research opportunities and funding.
VIRTUAL ADMISSIONS EVENTS

VIRTUAL “NEXT STEPS” YIELD PRESENTATIONS HOSTED BY REGION FOR ADMITTED STUDENTS

CONTACT COUNSELORS BY REGION:

Region 1, 2 & 10: Justine Medina, justinmm@uci.edu
Region 3 & 4: Norma Peniche, npeniche@uci.edu
Region 5 & 6: Cheryl Turrise, cturrise@uci.edu
Region 7: Bryant Parker, baparker@uci.edu
Region 8: Bianca Leon, bestrell@uci.edu
Region 9: Tiana Otubuah, tlynch@uci.edu
THE TRANSFER TRANSITION

TRANSFER STUDENT HUB
- 6 transfer success programs
- Weekly newsletter and workshops
- Peer mentoring

STUDENT SUCCESS INITIATIVES
- Book and laptop loan programs
- Discounted printing
- CalFresh assistance
PSYCHOLOGY AT UCI

**B.A. IN PSYCHOLOGY:**
Designed for students interested in development, perception, vision, hearing, attention, consciousness, learning, memory, decision making, language, or cognitive neuroscience

**B.S. IN COGNITIVE SCIENCES:**
Designed to provide students with a quantitative approach to the study of cognitive sciences combining computational cognitive science, cognitive neuroscience, and artificial intelligence

**B.S. IN PSYCHOLOGY:**
Designed to provide students with a strong background in modern scientific approaches to psychology grounded in the physical and biological sciences as preparation for research and graduate study in psychology

**B.A. IN PSYCHOLOGICAL SCIENCE:**
Designed for students interested in developmental, social, health, and abnormal psychology. Advanced courses cover specialized topics in these fields, as well as in environmental, clinical, cultural, and community psychology
COVID-19 RESPONSE

TRANSCRIPTS
Only accepted electronically via:
• Parchment
• Credentials eScrip-Safe

GPA AND P/NP
• GPA calculated based on grades provided by colleges
• P/NP flexibility for current admits and future applicants
COVID-19 RESPONSE FOR PROSPECTS

• P/NP will be accepted for admission and major requirements for those affected during this time.

• Does not take into account whether specific academic programs will require retaking a course for a grade to meet graduation requirements.

• Students must meet all admissions and major requirements by end of spring prior to enrollment.
